If you are searching for a speedy gaming rig, which will punch a hole in your wallet, I believe that you should definitely take a closer look at the F1X 200 and F1X 500 gaming rig. Generally, the F1X 500 is powered by the following hardware configurations:

- Overclocked Intel 3.6GHz OC'd Core i7-975 CPU
- 80GB SSD boot drive
- 12GB of DDR3 memory
- 6x Blu-ray writer
- 1.5TB Western Digital storage drive
- Closed-loop watercooling system
- Twin ATI Radeon HD 5870 GPUs (1GB)
- 1,000 watt power supply

With so much processing power on board, you'll best be expected to drop at least \$2,249 for the F1X 200, while the F1X 500 will cost you a whopping \$5,149.

That's serious money that we're talking about!
